Specialization: Business English, South China Normal University, Guangdong; Period: March 2013 – June 2016

2013.03-2016.06

work experience

Guangzhou Yingben Creative Brand Marketing Co., Ltd. | Customer Manager, February 2023 – January 2026

2023.02 -2026.01

- Research and Planning Strategy: Independently developed comprehensive marketing solutions for over 20 partner brands, formulating tailored plans based on market conditions and user profiles, and coordinating with clients to initiate projects; independently handled cross-industry collaboration communications, coordinated with multiple suppliers, managed scheduling, and oversaw the entire implementation and acceptance process. Through cross-sector partnerships, we drove steady growth in client store GMV, achieved controllable project ROI, delivered 95% overall customer satisfaction, and built a robust network of stable partners.
- Process Optimization: We streamlined the internal collaboration framework within the project, coordinating creative and execution teams to advance activities in tandem. During implementation, we monitored real-time exposure and conversion metrics, adjusting content materials and rollout schedules based on actual performance. Post-event, we compiled review reports to document optimization insights. By streamlining coordination processes, we significantly reduced project delivery timelines, earning recognition for efficient cross-functional collaboration with an annual Excellence in Collaboration Award.
- Risk control review: Monitor cooperation contracts, conduct monthly cost reconciliation and cost control to proactively prevent budget or performance issues; perform post-event reviews to compile data on transactions, ad spend, conversions, and ROI, analyze the correlation between marketing actions and actual business outcomes, and build expertise in project cost management and risk mitigation.

Guangzhou Kunning Trading | Head of Store Operations, September 2013 – December 2018

2013.09 - 2018.12

- Store Establishment: Join two premium offline grain and oil retail outlets to independently oversee site selection evaluation, store opening cost budgeting, supply chain development, and full-process offline marketing implementation, ensuring comprehensive control over every stage of physical store operations from preparation to operation.
- B2B Customer Acquisition: Organize offline tasting events and corporate outreach campaigns, collaborating with banks, healthcare institutions, and manufacturers to establish long-term cross-industry partnerships; precisely identify corporate client needs, driving a 40% increase in overall repurchase rates and securing stable B2B revenue streams.
- Franchise Operations & Maintenance: Optimize the inventory allocation mechanism for regional franchisees, with a focus on coordinating product supply and managing order fulfillment during peak seasons to maintain a stable order fulfillment rate of 95%, thereby reducing customer loss risks caused by stockouts or shipping delays.

Project Experience | Client Manager: September 2023 – May 2025

2023.09 - 2025.5

- The Cross-Border Collaboration of IP: The 2023 Joint Collaboration Between Coffee Hotel and the British Museum for Their 10th Anniversary
  We implemented a comprehensive cross-border marketing strategy, covering full-chain initiatives including social media promotion, co-branded merchandise development, and online interactive activities. By leveraging IP content to enhance product value, we achieved significant growth in store foot traffic and member conversion rates. With strict budget control, the project demonstrated excellent return on investment.
- Comprehensive Beauty Solution: 2024 Marketing Project for Nai Xiaobai's Adhesive-Free False Eyelashes
  A comprehensive solution covering brand positioning for independent trading, short-video content creation, Xiaohongshu product recommendation, and live-stream conversion processes; achieved cumulative sales of over 150,000 units, ranking first in the subcategory with an 800% month-over-month GMV growth. Precise channel targeting minimized waste, delivering substantial overall return on investment.
- New products for infants and children: 2025 Guaiqi Bear zodiac-themed clothing line, with social media marketing strategies.
  We coordinated brand visual packaging, the Xiaohongshu KOC matrix, and the regularized operation of TikTok live streams; the zodiac-themed blockbuster series achieved remarkable success, with GMV increasing by 260% year-over-year within three months of new product launch. Targeted audience targeting optimized customer acquisition costs, and project returns remained consistently positive.

skill certificate

- Product Software: Office (Word/Excel/PPT), business negotiation tools, and planning solutions;
- Language proficiency: CET-4 and CET-6, IELTS 6.0; fluent and clear spoken English; native Mandarin; Cantonese; Cross-border E-commerce Specialist Level 2 certification.

self-evaluation

Outstanding planning and organizational capabilities: With years of hands-on experience in both physical retail and advertising sectors, specializing in cross-industry brand collaborations, end-to-end project execution, and supplier management; proficient across the entire process from business negotiations to project initiation, implementation, and post-project review. Leveraging bilingual proficiency and a master's degree from a Hong Kong university, capable of swiftly adapting to internship roles involving brand partnerships, external collaboration coordination, and project tracking.

Excelling communication and coordination skills: With years of hands-on experience in frontline business operations, candidates possess a mature business perspective and strong communication and coordination abilities compared to fresh graduates, enabling them to independently manage complete projects without extensive supervision. They maintain stable schedules suitable for long-term internships and are proficient in internet-based tools.

Outstanding team spirit: Consistently prioritizes teamwork, proactively communicates when issues arise, willingly shares practical experience, and humbly adopts colleagues' suggestions to collaboratively advance project implementation; demonstrates rapid learning adaptability, swiftly acquires proficiency in new business areas and processes, and actively enhances job-specific skills during spare time to continuously address capability gaps.

Exemplary sense of responsibility and execution capability: pragmatic, reliable, and highly accountable in all tasks; maintains sustained enthusiasm for work and ensures timely completion of assigned tasks with closed-loop follow-up. Skilled at identifying operational challenges and developing feasible solutions, paying meticulous attention to details while rigorously minimizing errors to ensure both efficiency and quality of outcomes.
